

# OB/GYN ~ 50<sup>TH</sup> REUNION

October 22, 2011  
The Sheraton Springfield  
at Monarch Place

## Objectives

### GOAL

The goal of this program is to support safe, effective, patient-centered, timely, efficient, equitable, and compassionate care for the OBGYN patient.

### LEARNER OBJECTIVES

By participating in this program, you should be able to:

- Describe at least two new educational approaches to prevent adolescent pregnancy.
- Describe an evidence based approach to managing in utero events.
- Describe the major advances in laparoscopic surgery and the impact of those changes on the quality of care.
- Describe the optimal management of patients with multiple prior cesarean sections.
- Compare the major differences between the surgical approaches to hysterectomy.
- Compare your current practice with best practice for OB/GYN patients.
- Describe the roles of the members of the health care team in their respective responsibilities for quality care.
- Describe strategies for removing obstacles to the provision of optimal patient care.

#### Baystate Has Gone Green.

The speaker handouts will be available as they are received and peer reviewed on the continuing education portal

If you would like a printed copy of the course handouts, we will email the handout materials and publish them on the website --
