

Having Your Baby Soon at Baystate Medical Center?

We want you, your baby and your visitors to have best possible experience. Please tell your visitors three important things before they arrive at Baystate Medical Center to visit you:

- 1** The best place to park is in Baystate Medical Center's **Wesson Parking Lot**. Use the **Wesson Entrance**.
- 2** **Visitors of moms and babies now check in and request entry. Unit doors are locked.** Your visitors need to know your first and last names.
- 3** To help mothers and babies stay healthy, **if visitors have cold or flu symptoms they should call you on the phone instead of visiting.** Also, during this flu season **we do not allow visitors under age 13.** They may call (413) 794-0000 and ask for you or you can share the direct line listed on your in-room telephone.
